TROPICAL CYCLONE BULLETIN NR. 18
Tropical Depression BASYANG (PENHA)

Issued at 2:00 PM, 06 February 2026
Valid for broadcast until the next bulletin at 5:00 PM today.

"BASYANG" HAS MADE LANDFALL OVER BOHOL.

Location of Center (1:00 PM)

The center of Tropical Depression BASYANG was estimated based on all available data **in the vicinity of Bilar, Bohol (9.6°N, 124.1°E).**

Intensity

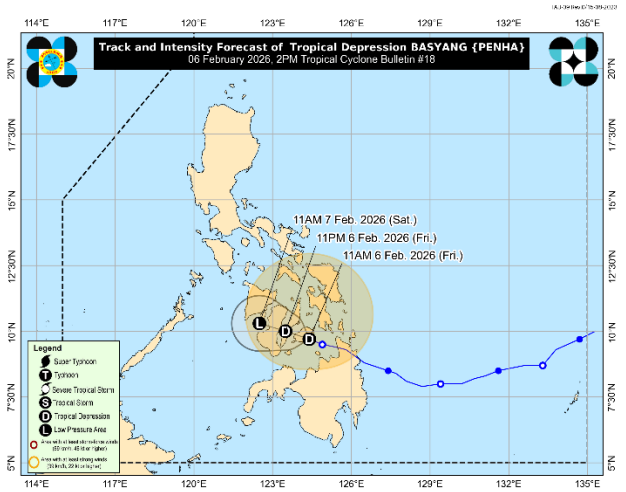
Maximum sustained winds of **55 km/h** near the center, gustiness of up to **75 km/h**, and central pressure of **1002 hPa**

Present Movement

West northwestward at 20 km/h

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **330 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 11:00 PM 06 February 2026	10.0	123.5	In the vicinity of Dumanjug, Cebu	45	TD	WNW 10
24-Hour Forecast 11:00 AM 07 February 2026	10.3	122.5	Over the coastal waters of Nueva Valencia, Guimaras	-	LOW	WNW 10

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 29 issued at 11:00 AM today for the heavy rainfall outlook due to Tropical Cyclone BASYANG.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.
- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.

The surge of the Northeast Monsoon will also bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Batanes, Babuyan Islands, northern portion of mainland Cagayan, Metro Manila, CALABARZON, Bicol Region, most of MIMAROPA, Visayas, Dinagat Islands, Siargao and Bucas Grande Islands, Surigao del Norte, Surigao del Sur, Agusan Del Norte, Misamis Oriental, Lanao Del Norte, Lanao del Sur, Bukidnon, Misamis Occidental, Zamboanga Peninsula, Sarangani, Davao de Oro, Davao del Norte, and Davao Oriental.
- **Tomorrow (07 February):** Most of Luzon, Western Visayas, most of Negros Island Region, and Zamboanga del Norte.
- **Sunday (08 February):** Most of Luzon

Coastal Flooding

All Storm Surge Warning has been lifted

HAZARDS AFFECTING COASTAL WATERS

There is no Gale Warning hoisted at this time.

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Northern Samar, Agusan del Norte, Camiguin, Siquijor, Misamis Oriental, and Misamis Occidental; the eastern seaboards of Catanduanes, Albay, Sorsogon, Eastern Samar, Dinagat Islands, and Siargao-Bucas Grande Islands; the northern seaboard of Lanao del Norte; the southern seaboards of Southern Leyte, Bohol, Cebu, Negros Oriental, and Negros Occidental.
- **Up to 3.5 m:** The northern seaboards of Camarines Sur and Catanduanes; the northern seaboard of Zamboanga del Norte; the southern seaboards of Antique, Iloilo, and Guimaras; the remaining seaboards of Bohol and Lanao del Norte.
- **Up to 3.0 m:** The seaboards of Aurora and northern Quezon; the northern and eastern seaboards of Polillo Islands; the northern seaboard of Camarines Norte.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboard of Isabela and Leyte; the eastern seaboard of mainland Cagayan; the remaining seaboards of Southern Leyte, Cebu, Bohol, Negros Occidental, Negros Oriental, and Zamboanga del Norte.
- **Up to 2.0 m**: The seaboards of Batanes, Babuyan Islands, Cuyo Islands, Cagayancillo Islands, and Sarangani; the western seaboard of Zamboanga del Norte; the northern and western seaboards of Basilan, Sulu, and Tawi-Tawi; the southern seaboards of Occidental Mindoro and Oriental Mindoro; the remaining seaboards of Quezon, Bicol Region, and Western Visayas.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- BASYANG will move generally west northwestward throughout the forecast period. On the forecast track, the center of BASYANG may make landfall over the southern portions of Cebu and Negros Oriental. Afterwards, it will pass close over the southern portion of Panay Island.
- BASYANG has weakened into a tropical depression and is likely to remain in this category while traversing the Central Visayas and Negros Island Region, before weakening into a low pressure area by tomorrow (07 February).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
